How to Install

Preparation

Determine where you want to hang the icicle curain lights, and the popular choices are patio or around the windows of your home, or under the eaves of your roof, along or under the railing of your deck, etc.

Use a tape measure to measure the location you will place the lights, Get the ropes, or clips or nails or hooks ready for hanging the lights.

Installation

1. Remove the package. Plug to test out each light string and make sure everything is in a good condition.
2. Find usb plug and main wire out, And lay string lights out along with the main wire on the ground,
☐ **Please do not untie the ropes of light strings when you lay 10 strings out. Otherwise they will be easy to tangle together during hanging.**
3. Hang and install the first light string properly with ropes, or clips, or nails or hooks to the place where you want to decorate, repeat this process until you reach to last string, then untie the ropes of the 10 strings.
4. You can select your favorite flash model by pressing the usb button and then enjoy the beauty of the fairy lights.
